

FLY HIGH BIRD

FLY HIGH, BIRD is the Lucy Fernandez Foundation's Boater and Watercraft Safety Initiative.

Our aim is to help create awareness around boater and watercraft safety, boating regulations, and best practices by working with private and government agencies, both local and beyond, and aiding them in their initiatives that support, promote, and celebrate our Bird's favorite pastime and greatest passion, being on the water.

By encouraging Awareness, Education, Safety, and Fun for the next generation of responsible boaters, Lucy's experience will increase knowledge and preparedness, help enhance recreational boating, reduce accidents and fatalities, and play an intricate role in shaping a culture of consciousness and keeping our children, families, friends, and communities safe for years to come.
